- Effective Communication
- Critical Thinking

LANGUAGES

- Arabic (Fluent)
- English (Fluent)

ACADEMIC PROJECTS

Sentiment Analysis on Amazon Product Reviews(Graduation Project)

- Built a sentiment analysis pipeline that begins with web scraping product reviews directly from Amazon. Designed and developed a web-based application where users can input a product URL. The system processes the data, performs sentiment analysis, and displays results in a dynamic, dashboard-style interface.

UI/UX Design for SoulGYM

- Designed a comprehensive mobile app for **SoulGYM**, focusing on functionality, aesthetics, and user engagement.
- Tools: Figma

Data Analysis on Socioeconomic Status and Academic Success

- Analyzed the impact of socioeconomic status on academic success among high school students using advanced statistical methods.
- Conducted data cleaning, preprocessing, and statistical analysis to draw meaningful insights and conclusions.
- Tools: SPSS

Strategic Plan for Swift Technology

- Developed a strategic plan for Swift Technology to enhance operational efficiency and market positioning.
- Tools: Used a Strategic Process called Strategy-Formulation Framework
